Grading Above Standard

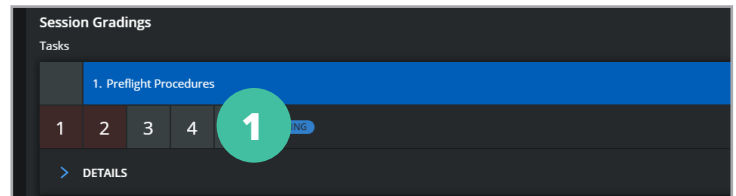

# Grading Above Standard

When a client performs a task that does exceeds the standard requirement, they will receive an above standard grade of 4

Grades of 4 require an additional explanation, whereas a standard grade of 3 does not. Refer to the following for more details.

## 1 Grades

You can choose a grade of 4. Your choice will open the Competencies window.

## 2 Competencies Window

This window will allow you to provide a reason for the grade that has been given.

## 3 Justify Later

If you do not have time to provide a reason, click the **JUSTIFY LATER** button and keep grading.

## 4 Given Grade

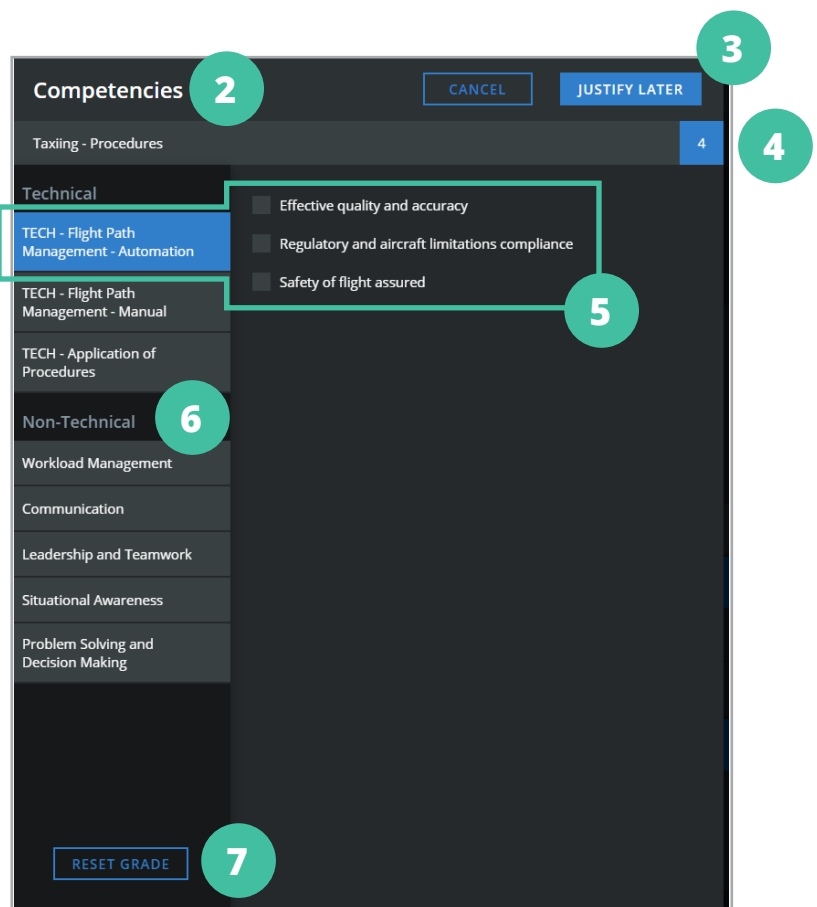

This represents the grade that has been given to the current task.

## 5 Technical

If the standard was exceeded for technical reasons, choose a justification within this section.

## 6 Non-Technical

If the standard was exceeded for non-technical reasons, choose a justification within this section.

## 7 Reset Grade

If you chose an above standard grade by mistake, click the **RESET GRADE** button.
