# Global Competencies

Global competencies are required skills that need to be completed before the training session can be finalized. Unlike tasks, certain grades do not require any justification.

Follow the procedure below to grade the competencies.

The screenshot shows the AERise interface for a training session. At the top, it says 'Training Session' and 'SA'. Below that, there are two client profiles: 'Client Name A' and 'Client Name B'. The session title is 'A320 Standard Type Rating Course | Tuesday Feb 16, 14:34'. The 'Global Competencies' section is highlighted with a red circle '1'. It lists ten competencies with a grid of grades (1-4) for each client. A red circle '2' highlights the 'Communication' row. At the bottom, a progress bar is shown with a red circle '3' next to it. The progress bar shows 0/0 'Carried Over', 21/25 'Tasks', 1 'Not Completed', 1 'Not Applicable', and 0/4 'Comments'.

Competency	Client 1	Client 2	Client 3	Client 4
Aircraft Flight Path Management - Automation	1	2	3	4

## 1 Global Competencies

Here is a list of Global Competencies that a client needs to complete before the end of the session.

## 2 Grades

The grades range between 1 and 4. Similar to the tasks, a grade of 1 or 2 is below standard, a grade of 3 is standard and a grade of 4 is above standard.

## 3 Progress Bar

Global competencies are not tracked in the progress bar.
