## Adding Tasks by Compliance

Adding Compliance

To ensure that the tasks you're adding to the lesson comply with the regulatory authority, you can add tasks by compliance.

To learn more about adding tasks by compliance, review the information below.

1 Compliance Option
Click on the *Compliance* button to view the Compliance list.
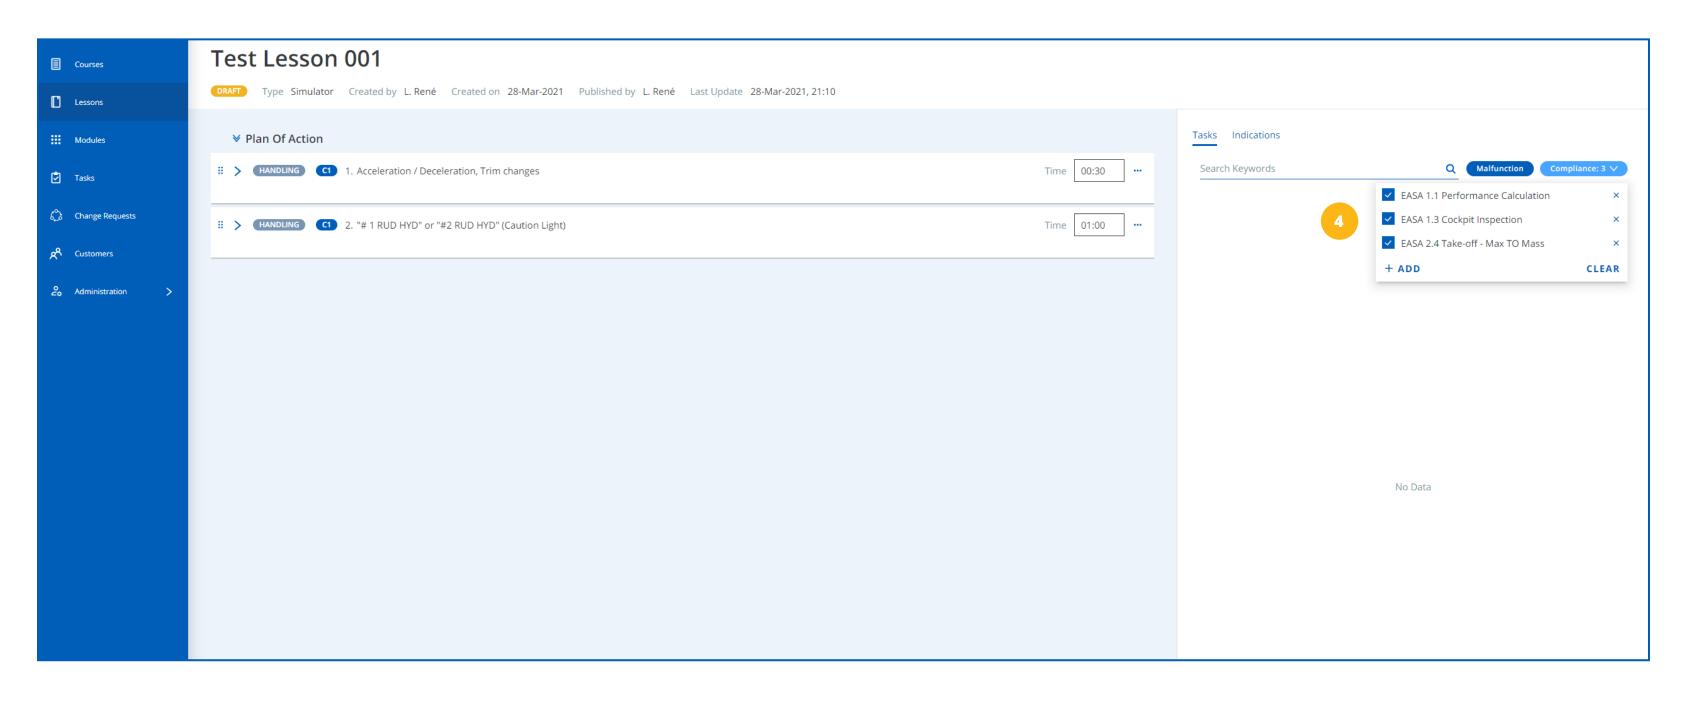

2 Add Button
Click the *Add* button to select the compliance from the list.

3 Compliance List
Select all the applicable items from the list and click the *Done* button once all your selections have been made.

Adding Tasks by Compliance
