

CAERise Editor

Module Scheduler

Module Scheduler Navigation

Once a module has been created, a CAE Rise Editor administrator can schedule and/or assign the module to a reserved training session. Each scheduled module can be sorted by simply clicking on the column title.

To learn more about the module scheduler section, review the information below.

- 1

Reservation Number

This column displays the reservation number for the module. The reservation number helps you locate the specific module.
- 2

Customer

This column lists the customer for which the module was created.
- 3

Course

This column displays the name of the course and, sometimes, its length (in days).
- 4

Client

This column identifies the client who requested the module.
- 5

Fleet

This column lists the type of Aircraft this module will cover.
- 6

Dates

This column shows the date range for the scheduled training session(s).
