Module Scheduler Details

Module Scheduler Details

Each reservation has its own set of module details for you to view. To view the module details, click on the blue arrow on the left of the reservation.

To learn more about the module scheduler details, review the information below.

1 Date/Time

This column displays the date and time that the training session will take place.

2 Unit Name

This column lists the unit name for the module. Given that there may be multiple modules, this help further identify each module.

3 Session Type

This column shows whether the session is meant for a classroom or a simulator.

4 Module

This column identifies the module's name.

5 Module Duration

This column lists how long the module lasts.

6 Session Duration

This column allows users to know how long the entire training session will last.

7 Status

This column displays the status. An assigned module will be green, a module that cannot be found will be yellow and an unassigned module will be red.
