

## LET'S GET STARTED

Welcome to CAE's cutting-edge immersive learning experience. Upon receiving your Apple Vision Pro kit, please follow these instructions:

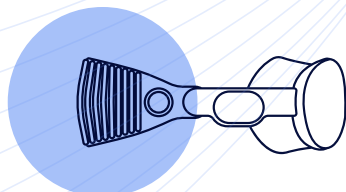

Please start with familiarizing with the device using the [Get started with Apple Vision Pro tutorials](#)

When ready:

**Open the case** and **connect the battery** using the cable connector on the left side of the headband. Align the white matching dots, then turn towards the dark dot to secure.

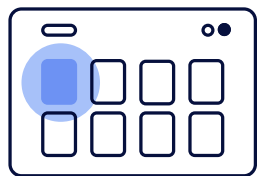

**Fit the Apple Vision Pro** on your head and secure it using the headband as per the guidance.

Press the top right "digital crown" button to **turn on the device and get started**. Follow the instructions for the initial setup. Log in with your personal Apple ID or skip this step.

After completing the user **setup** and **calibration**, on reaching the **home screen**, you will find the [CAE Personal Immersive Trainer app](#).

**Open the application, connect to your CAE Account**, and start by watching the **tutorial video**. The video will guide you through the next steps to begin your training.
