Top Five Training Challenges Based on Telemetry

Top Five Training Challenges Based on Telemetry

One of the most noticeable features of the Overview page is the *Top 5 Challenges your Pilots are Experiencing* section. In this section, you can view the more challenging training events that will show where there are opportunities for improvement based on telemetry. To learn more about the Top Five Challenges section based on telemetry, refer to the content below.

1 Telemetry Data

To view the challenges based on Telemetry data, refer to the meters on the left side of the section. The data highlights the events with the most exceedances.

4 See Details Link

To view a detailed representation of that training event along with additional context, click on the *See Details* link.

2 Company Meter

The blue bar shows the occurrence percentage of exceedances generated by the trainees of your company.

3 Aircraft Meter

The red triangles shows you where the exceedances were generated by aircraft type.
